

```
1 #include <stdio.h>
2 int main()
3 {
4     int score = 45;
5     if(score >= 60)
6     {
7         printf("Students has passed.\n");
8     }
9     else
10    {
11        printf("Students has failed.\n");
12    }
13    return 0;
14 }
```

Students has failed.
